Note to readers with disabilities: *EHP* strives to ensure that all journal content is accessible to all readers. However, some figures and Supplemental Material published in *EHP* articles may not conform to 508 standards due to the complexity of the information being presented. If you need assistance accessing journal content, please contact ehp508@niehs.nih.gov. Our staff will work with you to assess and meet your accessibility needs within 3 working days.

Supplemental Material

The Genetic Basis for Variation in Sensitivity to Lead Toxicity in *Drosophila melanogaster*

Shanshan Zhou, Tatiana V. Morozova, Yasmeen N. Hussain, Sarah E. Luoma, Lenovia McCoy,

Akihiko Yamamoto, Trudy F.C. Mackay, and Robert R.H. Anholt

Table of Contents

Excel File S6. Genes with protective alleles enriched in "good performer" lines identified through logistic regression.

Excel File S7. GWA analysis for adult activity.

Excel File S8. Flybase GO categories for genes associated with variation in activity in the DGRP.

Excel File S9. GO enrichment analysis using default DAVID settings at level 4.
